Value Based Healthcare Delivery - Beyond Quality to Value

Speaker: Dr Keith Lim
Senior Consultant, Department of Radiation Oncology, National University Cancer Institute, Singapore (NCIS)
Deputy Chief Medical Information Officer, NUHS
Assistant Dean, Yong Loo Lin School of Medicine, NUS

Chairperson: A/Prof James Yip
Senior Consultant, Department of Cardiology, and Programme Director Congenital/Structural Heart Disease, NUHCS
Chief Medical Information Officer, NUHS
Senior Clinical Lecturer Dept of Medicine, Yong Loo Lin School of Medicine, NUS

Synopsis

NUHS has embarked on the Value Driven Outcome (VDO) initiative on the premise that value in healthcare should be measured in terms of patient outcomes achieved and correlated with dollars expended.

VDO takes into account clinical outcomes and patient-reported indicators to determine if patients have received ideal quality care. This helps healthcare practitioners identify best clinical practices, highlight variances to aid standardisation, and rationalise cost differences without compromising on care.

Since December 2015, this methodology has been tested on a few medical conditions and a VDO analytics platform has been developed to visualise and study cost and quality indicators in the health system.

Date: 10 February 2017, Friday
Time: Registration & Breakfast at 7.10am – Talk begins at 7.40am
Location: NUHS Tower Block Auditorium, Level 1
