Friday, 1 July 2016

Auditorium @ National University Health System (NUHS)
Tower Block, Level 1
1E Kent Ridge Road
Singapore 119228

Abstract Submission Deadline: 29th April 2016
The National University Cancer Institute, Singapore (NCIS) and the Cancer Science Institute of Singapore (CSI) are proud to present

3rd NCIS Annual Research Meeting

NCAM 2016

Biomarkers to Personalize Cancer Therapy

As we move into the era of personalized cancer therapy, biomarkers to accurately diagnose, prognosticate, and predict therapeutic outcome in cancer has become increasingly important and routinely integrated in the clinical care of the cancer patient. NCAM 2016 brings together researchers, investigators, and clinicians to present and discuss current research activities in the translation of cancer biomarkers, including tumor, circulating, and imaging biomarkers, in the clinic, as well as the realization of individualized treatment in the standard of care.

Friday, 1 July 2016
(9am - 6pm)
Registration starts at 8.30am
[NUHS Tower Block Auditorium]
Registration and submission of abstracts will be open in March 2016 at www.ncam.sg
Stay tuned for further updates!
