## Your Gift Matters!

7-year-old Marie\* lives with multiple health issues, including respiratory and heart conditions, and relies on specialised milk feeds for nutrition and growth.

Marie's parents are also battling chronic health conditions. As the sole breadwinner, her mother's income is stretched to cover their medical bills and support the family, which includes an older sibling and grandparents.

**Thanks to your generosity, Marie is able to receive the specialized milk feeds she needs, easing the financial burden on her family.**

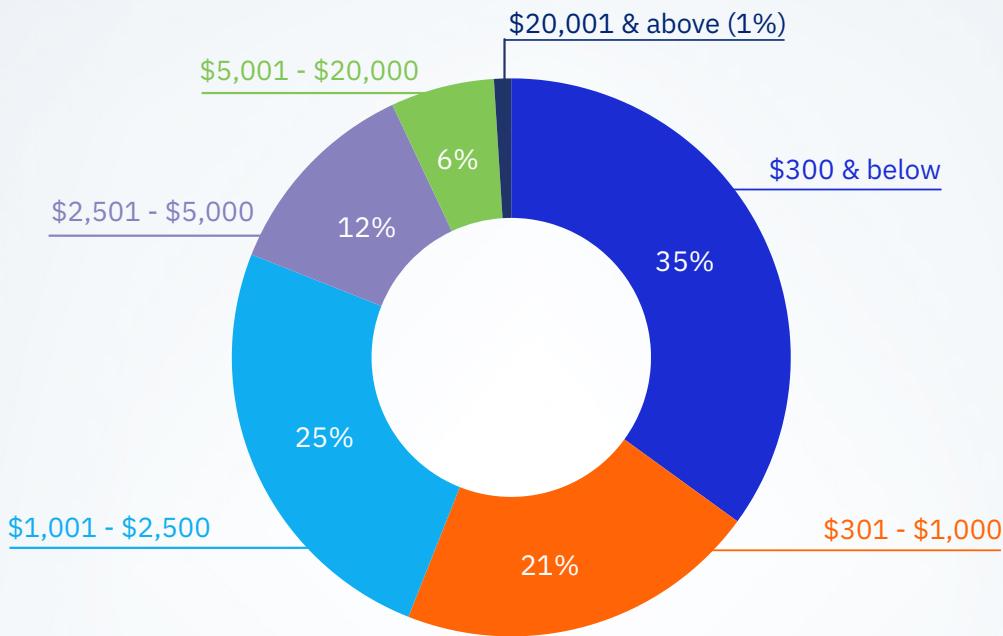

\*Name has been changed.

## Your Gift Matters!

Diagnosed with Obstructive Sleep Apnea, 31-year-old Affandi requires long-term follow-up and the use of a Bilevel Positive Airway Pressure (BiPAP) machine and mask to manage his condition. Without the equipment, Affandi's breathing could be disrupted in his sleep, potentially becoming dangerous.

As the main provider of his family, Affandi found it challenging to foot his hefty medical bills while making ends meet. His wife is a homemaker dedicated to caring for their two young children.

**Thanks to your generosity, Affandi received the support required to settle his medical bills, enabling him to focus on his family.**
