ABOUT NUHS FUND

NUHS Fund is a Company Limited by Guarantee (CLG) and a registered charity with IPC status.

The charity was set up to promote medical research and development as well as provide health related services for the benefit of the Singapore Community.

Your compassion to support patients, especially those assessed to be in financial need, will make a difference in their journey back to better health.

ABOUT THE HEART FUND

The NUHCS Heart Fund, a sub-fund of NUHS Fund, was established to assist financially disadvantaged patients in their journey towards better heart health, as well as supporting continuous medical research and education programmes in the field of cardiovascular diseases.

YOUR GIFT HAS GONE TOWARDS

FINANCIALLY DISADVANTAGED PATIENTS

72%

- Medical Procedures
- Long-term medical treatment & consumables

PATIENTCARE, MEDICAL EDUCATION & MEDICAL RESEARCH

28%

- Research to combat heart diseases
- Skills upgrade for Heart healthcare professionals
- Heart disease awareness initiatives

Your Gift Matters!

Small Gifts, Big Hearts 2025

When a patient's heart condition becomes too costly to manage, the weight of medical bills can overshadow the hope of recovery.

In Nov 2025, NUHCS staff and volunteers crafted handmade crochet items to raise funds for the NUHCS Heart Fund, a sub-fund of NUHS Fund through the *Small Gifts, Big Hearts fundraising campaign*. Over \$16,000 was raised, with every dollar going towards assisting financially disadvantaged patients on their journey towards better heart health.

The heartfelt efforts and dedication of the NUHCS staff and volunteers, coupled with the generosity of donors helps lighten the weight on patients who are struggling with both financial hardship and health issues. Our heartfelt appreciation to them for ensuring that patients can continue receiving vital heart treatment without fear or hesitation and with dignity.

"Each handmade gift carries warmth, love, and hope. With your support, we can reach more hearts and wrap those in need with comfort."

- Low Pei Yi, Medical Technologist, Electrophysiology (EP) clinical team
