# Debriefing in Simulation-Based Healthcare Education

**Wednesday, 10 February 2021**

8.00am – 5.00pm

Venue: Centre for Healthcare Simulation, Level 3, CeTM, NUS - MD 6,  
14 Medical Dr, Singapore 117599*Course Reference Number:**SkillsFuture Singapore (SSG)-Funded Course (CRS-N-0049349)***Register By: 11 January 2021**

Debriefing is an essential component in any simulation session where true learning is reinforced. It helps to align both the learner's perception and the faculty's expectations in ensuring that the learning objectives are met.

Organised by the NUS Yong Loo Lin School of Medicine, Centre for Healthcare Simulation, this one-day course provides both undergraduate and postgraduate faculty with additional skills to facilitate an effective debriefing session. Participants will be exposed to different debriefing techniques and strategies, and work in groups to discuss and role-play various debriefing situations, using both standardized patients and high-fidelity simulators.

They will also evaluate debriefing sessions, receive feedback on their debriefing techniques and reflect on areas where their debriefing can be made more effective. At the end of the course, participants should have a broader understanding on the theory and practice of effective debriefing in simulation.

## Who Should Attend

## Hear from Our Past Participants

" The course was very useful and I learnt the structured method of approaching debriefing. I found the difficult learners' section most useful. "

- Megha, NUH

" This is a good course for those who are keen to learn effective debriefing techniques. "

- Anonymous Participant, KTPH

" A well organised and practical session. "

- MisRohaiza, NP

## Our Trainers

A multidisciplinary team of esteemed faculty and healthcare professionals from the NUS Yong Loo Lin School of Medicine and the National University Health System, with more than 10 years' of experience in simulation training.
